INTENDED PARTICIPANTS - TRAINEES

Medical doctor Surgeon Orthoptists

Medical students Medical specialists

OBJECTIVES OF THE EXCHANGE

Knowledge sharing between medical network members
Highly specialised mobility for surgical fellow
Knowledge sharing between other members of the ERN-EYE expert teams

Since 1993 the Eye Clinic is known as Baltic Center of ocular oncology. During the last 30 years there have been numerous collaborations and teaching events for trainees in three Baltic states in regards to rare congenital malformations, anterior segment pathology, oncologic diseases and their oculoplastic management.

The treatment of patients with congenital periocular conditions in the Baltic States is concentrated mainly in Tallinn. The trainees have the opportunity to gather the knowledge and expertise collected for the past 30 years.
