ERN-EYE GENERAL ANNUAL MEETING

ERN-EYE Project Management Team   28/03/2019
Satisfaction Survey

ERN-EYE organized its 3rd General Annual Meeting from March 21st to 22nd in Prague, Czech Republic. It gathered nearly 70 people from the HCPs of the 13 member countries of the network, as well as invited speakers. The central part of the meeting was dedicated to the third governance board bringing together the representatives of ERN-EYE full members and patient representatives. During this board, a positive assessment of the actions of ERN-EYE in 2018 could be made: the main objectives have been achieved or are in progress and new projects will be launched very soon.

The second part of the meeting was devoted in particular to the research with Hélène Le Borgne who gave the views of the EU and some ERN-EYE members who presented their work into the ERN-EYE transversal working group "Research".
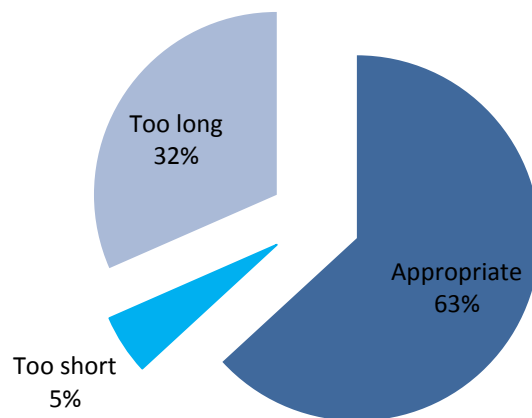

As a red line, a great part of the meeting was dedicated to the CPMS with the presence of Dr Laura Mauring, ERN-EYE MD fellow 2018-19, ophthalmologist, and Francesco Rotolo, IT specialist, who constitute the new ERN-EYE CPMS Helpdesk.

Finally, a large place has been given to the registries with Pr Hélène Dollfus who mentioned the strategy and the planning for the coming year and to the e-learning with Dorothée Leroux, ERN-EYE Project Manager, who talked about the strategy, the program and the timeline.

The meeting sessions offered valuable insights for ERN-EYE

The meeting outputs will be useful to my work and my work related to ERN-EYE

The goal of the meeting was to fix the goals for the year 3 of ERN-EYE and to present all the ongoing actions of the network. In view of the results mentioned above, it seems that the objective has been achieved.
